WELCOME FOR A TONOPAH BRIDE

When Bert M. Laurence left Saturday for a visit to familiar scenes at Tonopah, Nevada, only his family knew that he went on a very interesting mission, that of claiming a bride. Miss Leslie Wardle, a charming young woman of Tonopah and the daughter of a pioneer mining man.

There was a surprise for the San Bernardino relatives of the groom, however, in the arrival yesterday of the bridal pair, who were not expected for several days, as the original date of the wedding was set for Thursday today.

The bride and groom, however, made plans to escape the threatened attentions of their many friends in Tonopah, and advanced the date as the event had been planned as a quiet ceremony.

The wedding was celebrated at the home of the bride's parents, Mr. and Mrs. Ralph Wardle, and the bridal pair slipped away to California, leaving the announcement of their wedding and departure as a surprise for their friends. On arrival here they went immediately to their new home, one of the pleasant California bungalows in Dalmwood Court in Seventh street.

They expect to spend a month in the Bear Valley, and afterwards will be at home to friends.

The bride was cordially welcomed to the groom's family last evening at a dinner at the home of his mother, Mrs. Adeline Laurence at 1206 D street, among in the company being Mr. and Mrs. E. P. Laurence and children, the Misses Minnie, Georgia and Myrtle Laurence and John Laurence.

The groom, who is now associated in business with his brother, E. P. Laurence, is a well known San Bernardino native son, and high school graduate, who was in Tonopah for about six years, as superintendent of the Helmont mine following his graduation from the School of Mines of Golden, Colorado.

He left to support Uncle Sam. After some difficulty in being accepted for military service, he was ordered to the officers' training school at Camp Taylor, Louisville, Ky., and had his transportation and was scheduled to leave the following day when the armistice was signed and his orders cancelled, to his great disappointment. The groom is an Elk, and has a host of friends who will be eager to congratulate him and to meet his bride.

The latter is a graduate of the Nevada university and also of the University of California at Berkeley, and has been a successful teacher in the Tonopah schools for several years. She is accomplished musically and is a member of the Eastern Star chapter in her home city.

In her large circle of friends she has recently been the recipient of numerous social courtesies, as farewell events to mark her departure for a new home. She will receive a very warm welcome to San Bernardino.—San Bernardino Sun.

SECURE ACTION ON GOOD ROADS

At a meeting last night of the executive committee of the Divide-Tonopah Chamber of Mines, the committee on roads, bridges and automobiles, John H. Miller chairman, was instructed to take up with the supervisors of Esmeralda county the matter of immediately repairing the Tonopah-Goldfield road, beginning at the Nye County line. Mr. Miller, for the committee, will at once confer with the Esmeralda County board of supervisors in an effort to have this work done.

With a view to members of the Divide-Tonopah Chamber of Mines attending the Pacific fleet ceremonies in San Francisco the secretary was instructed to communicate with W. D. Foster of the Tonopah & Goldfield railroad on the matter of rates, berth reservations and a special car for the residents of Tonopah. The plan is to have the car leave this city August 29 and at Reno to join the special train from that city bearing members.

Following is the roster of committee. In each instance the first

Is it Possible to Legislate Life and Brains?

Swift & Company is primarily an organization of men, not a collection of brick, mortar, and machinery.

Packing Plants, their equipment and usefulness are only outward symbols of the intelligence, life-long experience, and right purpose of the men who compose the organization and of those who direct it.

Will not Government direction of the packing industry, now contemplated by Congress, take over the empty husk of physical property and equipment and sacrifice the initiative, experience and devotion of these men, which is the life itself of the industry?

What legislation, what political adroitness could replace such life and brains, once driven out?

Let us send you a Swift "Dollar." It will interest you. Address Swift & Company, Union Stock Yards, Chicago, Ill.
